35	Collection Overview

Terrazzo becomes glass

The timeless beauty of terrazzo reinvented in glass. A collection that reinterprets a timeless classic and turns it into recycled glass mosaics, creating an innovative and sustainable concept that combines the original aesthetics of terrazzo with the modernity and versatility of glass.

The random distribution of materials creates a unique arrangement, creating unrepeatable patterns, a variety of textures and visual richness in each glass mosaic.

A unique design that brings a special brilliance and depth to each mosaic.

A collection available in 25mm and 50mm, offering a wide range of possibilities to suit different needs and styles.

In addition, the collection includes the Corner and Cove pieces, designed to create a perfect finish on edges and steps, allowing for a precise and aesthetically flawless installation.

Terrazzo Collection

Special Pieces: Corner & Cove

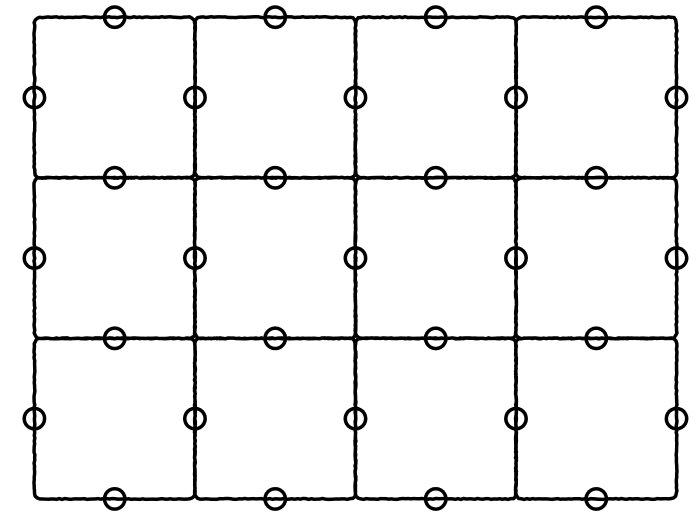

Corner and Cove pieces give your pool a graceful premium finish. They are perfect for finishing off the edges of steps and providing a seamless transition from vertical to horizontal surfaces.

Special Corner and Cove pieces are available in all the Terrazzo Collection.

JointPoint®

**A small uniform
point
rigorously
controlled**

25 mm mosaic

A unique, revolutionary and technologically advanced system since 1995. JointPoint® provides easy, uniform installation of mosaic tile on any surface.
